

## HG STORAGE CONTAINER - LARGE PACKAGING PG I SC 900

### Large packaging for dangerous goods of packing group I (IMDG/ADR/RID)

The storage container can contain and safely store the QC80 and QC150 transport containers for liquid mercury with a maximum capacity of 150 litres. The storage container can also be used for transport. It has a double wall with a warning indicator to protect against leakage. The container is easy to clean due to the brightly polished surfaces. The storage container can hold all substances of packing group I and can be stacked three high.

### Technical Specification – QC 900

BAM approval: ADR/ RID / IMDG

UN approval: UN 50A/X/.../D/BAM 15118-UTM/13620/2439

Leakage monitoring of the bottom tray

Capacity: 900 litres

Material: corrosion-resistant Cr-Ni steel

Stacking weight: 13,620 kg, stackable in three tiers

Length outside: 1100 mm

Width outside: 1100 mm

Height outside: 1010 mm

Tara Weight: 243 kg

Maximum Total Weight: 2.439 kg
